

June 2022 Update

Dear Neighbors,

Thankfully it has been a quiet July in PRE. Thus I have no substantive news to pass on in this Update. The County has finally approved a contract for our engineer to complete specs for the paving project, which will enable it to be put out for contractors' bids. When they have an estimated paving date, the Paving Task Force will distribute detailed information about when and how paving will take place and needed road management during that time. In addition, many of you are hard at work on your defensible space, which is a service to us all – thank you so very much!

One related reminder: there is a **Measure C-funded Free Curbside Chipper Day Program** this year. Two pickups (weeks of **July 11** and October 10) are scheduled for PRE. Advance reservation is required. For details and to make a reservation, go to <https://chipperday.com/marin>. Clear your defensible space and help keep PRE safe!

Lynn Axelrod of the Point Reyes Disaster Council has recently posted updated fire information from Firesafe Marin on Nextdoor. Since many of you are not subscribers to that network, I am pasting links she highlighted below, so you can have a look.
